**Headteacher:** Sonia Close NPQH, B.ed, MA

Dear Parents/Carers,

After assessing the site at the end of the day, we have not been able to clear enough snow to make the site safe. We have used all our salt and shovelled a lot of snow. Unfortunately, none of it has melted and the site is still covered in 5 inches of snow making it unsafe. The complexity of 3 buildings means we cannot safely move pupils around.

Therefore, the plan for tomorrow is that we will continue to **offer online learning** for pupils and that all lessons will be live. Pupils need to follow their normal timetable and lessons will start at 10.25am.

If you are a keyworker, or your child requires additional support with their learning or you do not have access to online facilities then the school will be open for your child. They must arrive at school by 10.25am. For those attending school we will provide them with lunch if required. They will also take part in online learning but with support from school staff. Pupils will be based in one classroom for the day in order to reduce movement.

**Please indicate by completing this form tonight if you want your child to attend school tomorrow.**

I apologise for the disruption to learning. We hope to reopen on Wednesday. Please have Christmas jumpers at the ready and we will be continuing to serve the Christmas dinner to pupils on this day.

Please stay safe

Kindest

Sonia Close
